

THE MENHADEN COALITION,

formed January, 2010, recognizes the critical role of menhaden in the complex ecosystems of the Chesapeake Bay and Atlantic Ocean.

Accordingly, we seek responsible management of the menhaden resource so that menhaden are present in sufficient quantity to fulfill their ecological roles as forage for fish and birds, and as filter feeders.

The following organizations are the charter members of the Coalition:

Organization

American Sportfishing Association
Bass Pro Shops
Chesapeake Bay Ecological Foundation
Chesapeake Bay Foundation
Coastal Conservation Association Maryland
Coastal Conservation Association Virginia
Falmouth Flats Fly Fishers
Fly Fishers of Virginia
Friends of the Rappahannock
